SAVING LIVES. TOGETHER.

RAPID BLOOD & FLUID WARMING

THE BELMONT® RAPID INFUSER RI-2

A leading medical device in combating hypothermia and blood loss, The Belmont® Rapid Infuser RI-2 rapidly delivers life-saving, warmed blood and fluid at the touch of a button—enabling clinicians to do their best work.

Robust in engineering and performance, **THE BELMONT®** is built to last.

FEATURES

- Electromagnetic Induction Heating
- Precise Peristaltic Pump Fluid Delivery
- Automatic Air Detection & Removal
- Advanced Pressure Regulation
- Automatic Priming & Repriming
- Intuitive Touchscreen Display
- Aluminum-Free Fluid Delivery

ORDERING INFORMATION

903-00037	The Belmont® Rapid Infuser RI-2 1000 mL/min (120V)
903-00037A	The Belmont® Rapid Infuser RI-2 1000 mL/min (230V)

3-SPIKE DISPOSABLE SET

P/N 903-00006

Provides operation at the full range of flow rates. The set is color-coded for easy installation and packaged pre-assembled with connections made between the heat exchanger, reservoir, and patient line.

CONTAINS:

- Heat exchanger
- 54-inch (1.37 m) patient line
- 120 mL reservoir with 250-micron coarse blood filter

PATIENT LINE EXTENSION

P/N 903-00022

The standard 3-Spike Disposable Set patient line can be extended up to 108 in. (2.7 m) using the Patient Line Extension, enabling a longer connection to a delivery site.

CONTAINS:

- 54-inch (1.37 m) patient line with injection port

4x4 LVR/HEAT EXCHANGER SET

P/N 903-00032

Offers the same features as the 3-Spike set, but the standard 120 mL reservoir is replaced with the 3.0 L (LVR) and up to 5 bag spikes are available. Connection between the reservoir and heat exchanger must be made by the end-user.

CONTAINS:

- Four (4) 3.0 L reservoirs with 160-micron microaggregate blood filters
 - **FOR USE IN ADULTS ONLY**
- Four (4) heat exchangers with 54-inch (1.37 m) patient lines

DUAL PATIENT LINE

P/N 903-00004

The standard patient line on the 3-Spike Disposable Set can be easily replaced with the Dual Patient Line, enabling connection to two-patient delivery sites.

CONTAINS:

- Two (2) 54-inch (1.37 m) patient lines with roller clamps

3.0 LITER LARGE VOLUME RESERVOIR (LVR)

P/N 903-00018

Designed to facilitate cases requiring large volumes of fluid. The reservoir is fully compatible with the 3-Spike Disposable Set tubing and heat exchanger and can easily replace the standard 120 mL reservoir mid-case via luer and quick-connector fittings.

CONTAINS:

- 160-micron microaggregate blood filter
- 3000 mL storage volume
- Up to 5 bag spikes
- **FOR USE IN ADULTS ONLY**

ORDERING INFORMATION

903-00006	3-Spike Disposable Set (12/box)
903-00018	3.0 L Large Volume Reservoir (6/box)
903-00032	4x4 LVR & Heat Exchanger Set (4 LVR + 4 Heat Exchangers/box)
903-00022	Patient Line Extension (24/box)
903-00004	Dual Patient Line (24/box)

ALL DISPOSABLES ARE FREE OF ALUMINUM, DEHP, AND LATEX.

PORTABLE BLOOD & FLUID WARMING

buddy lite[®] buddy lite[®] AC

Portable blood and fluid warming—anytime, anywhere—in a remarkably compact, lightweight package, buddy lite[®] is used globally by civilian and military medical personnel to help prevent hypothermia during fluid administration.

Stop hypothermia cold—reach for the **buddy lite[®]**.

FEATURES

- Automatic Air Removal
- Close-to-Patient Warming
- Battery or AC-Powered
- Compact and Lightweight
- Simple, Easy to Use Single-Button Control
- Approved for Use in Flight on Battery Power

ORDERING INFORMATION

905-00017	buddy lite [®] (120V)
905-00022	buddy lite [®] AC (120V)
905-00016	buddy lite [®] (230V)
905-00023	buddy lite [®] AC (230V)
905-00042	buddy lite [®] (120V) w/12V Vehicle Charger

Contact sales@belmontmedtech.com for additional international product configurations.

BUDDY™ DISPOSABLE SET

P/N 905-00010

The disposable set features a large venting membrane that automatically vents out-gassed air during fluid warming. Other patient safety features include a one-way valve to prevent backflow, a valve to prevent air entrainment, and a pressure-regulating valve to limit the risk of vessel trauma.

FEATURES:

- Low prime volume (6.2 ml) reduces waste
- Color-coded for easy installation
- Compatible with standard IV administration sets

BATTERY PACK

P/N 101-00029

Replacement or additional battery for extended use of the buddy lite[®] or buddy lite[®] AC system.

ORDERING INFORMATION

905-00010	buddy™ Disposable Set (24/box)
101-00029	Battery Pack (1 battery)
111-00026	Battery Charger (1 charger)
111-00037	AC/DC Power Supply (1 power supply)
111-00032	12V Vehicle Charger (1 charger)
205-00090	buddy lite [®] Canvas Pouch, 6.5" x 6.5" x 3"
205-00089	buddy lite [®] AC Canvas Pouch, 12" x 6.5" x 3"

BUDDY LITE[®]/AC POUCHES

P/N 205-00090 (buddy lite[®])

P/N 205-00089 (buddy lite[®] AC)

Tactical/military canvas carrying pouches for the buddy lite[®] and buddy lite[®] AC.

BATTERY CHARGER

P/N 111-00026

Replacement charging station for buddy lite[®] battery.

AC/DC POWER SUPPLY

P/N 111-00037

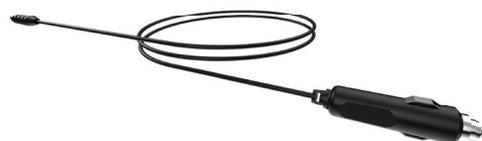

Replacement AC/DC power supply.

12V VEHICLE CHARGER

P/N 111-00032

12V DC vehicle charger connects to the battery charger, enabling the buddy lite[®] battery to be charged using vehicle or AC power.

ALL DISPOSABLES ARE FREE OF ALUMINUM, DEHP, AND LATEX.

HYPERTHERMIC LAVAGE

HYPERTHERMIA PUMP™

A global leader in delivery of hyperthermia therapy, Hyperthermia Pump™ is used in therapeutic procedures to raise the temperature of the thoracic or intraperitoneal cavity to the desired target temperature through continuous lavage with warmed sterile solution.

Prioritize safety without sacrificing performance—**HYPERTHERMIA PUMP™**.

FEATURES

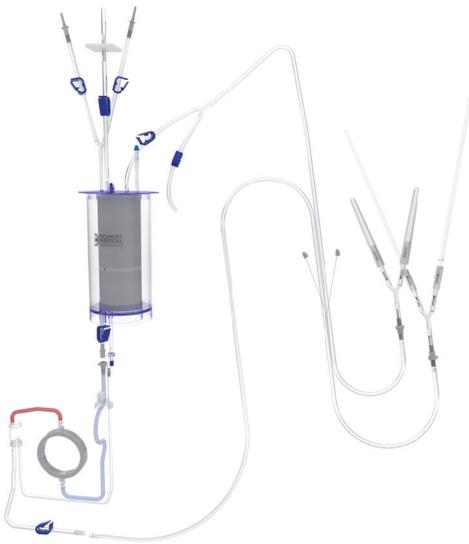

- Electromagnetic Induction Heating
- Precise Temperature Control
- Vacuum Assisted Outflow
- High-Speed Peristaltic Pump Driven
- Intuitive Touchscreen Display
- Compact & IV Pole Mountable
- Quick Setup & Easy to Use

ORDERING INFORMATION

902-00001 Hyperthermia Pump™ (120V)

902-00001A Hyperthermia Pump™ (230V)

PROCEDURE KIT

P/N 902-00045

The Procedure Kit is designed to save time and money by simplifying complicated tubing setups into a single, comprehensive, and easy-to-install kit. Embedded temperature probes monitor outflow and return fluid temperature with the option to monitor patient cavity using two additional probes.

CONTAINS:

- One (1) 4.4 Liter Reservoir (902-00034P)
- One (1) Heat Exchanger (902-00006P)
- One (1) Procedure Pack (902-00048P):
 - Double lumen patient line with two (2) temperature probes*
 - Two (2) extra temperature probes
 - Two (2) sumps
 - Two (2) Via-Guard®

*Each temperature probe is 72 inches (1.83 meters) in length, allowing connection outside the sterile field

BIFURCATED LINE SET

P/N 902-00038

The Bifurcated Line Set provides a single straight inflow patient line and a single bifurcated patient line with a total of four fluid outflows.

CONTAINS:

- One (1) 4.4 Liter Reservoir
- One (1) Heat Exchanger
- 8 ft. (2.4 m) straight inflow patient line
- 8 ft. (2.4 m) bifurcated outflow patient line

STRAIGHT LINE SET

P/N 902-00037

The Straight Line Set provides a single inflow/outflow patient line. The patient line must be cut along the extended tubing length (at the physician's discretion) within the sterile field for insertion to and from the body cavity.

CONTAINS:

- One (1) 4.4 Liter Reservoir
- One (1) Heat Exchanger
- 16 ft. (4.9 m) straight inflow/outflow patient line

The Straight Inflow/Outflow and Straight Inflow/Bifurcated Outflow Patient Line Set is packaged and sterilized separately from the heat exchanger and reservoir.

ALL DISPOSABLES ARE FREE OF ALUMINUM, DEHP, AND LATEX.

CANNULA CONNECTOR

P/N 902-00036

Provides a simple means whereby the user can have two input cannulas in the cavity and/or two output (return flow) cannulas.

CONTAINS:

- Pre-connected tubing assembly
- Barbed Y-connectors
- Fittings for adapting the inflow and/or outflow tubing to accept a cannula with a larger flow diameter than the currently provided patient line

ORDERING INFORMATION

902-00045	Procedure Kit (1 kit)
902-00038	Bifurcated Line Set (1 kit)
902-00037	Straight Line Set (1 kit)
902-00036	Cannula Connector (12/box)

MILITARY

BLOOD & FLUID WARMING

buddy lite®/AC

Portable blood and fluid warming—anytime, anywhere—in a remarkably compact, lightweight package, buddy lite® is used globally by military medical personnel to help prevent hypothermia during fluid administration.

Known by many service personnel simply as "The Belmont," and trusted in the most extreme situations for more than 20 years, The Belmont® Rapid Infuser RI-2 delivers life-saving warmed blood and fluid at the touch of a button—quickly, reliably, and bubble-free.

Contact us at sales@belmontmedtech.com to inquire about military product order configurations available in your country.

- INQUIRE buddy lite® (Military)
- INQUIRE buddy lite® AC (Military)

ADVANCED PATIENT WARMING

ALLON®

Safe, precise, and effective, Allon® enables clinicians to consistently and confidently control and maintain patient body temperature throughout all stages of the perioperative continuum—even during long procedures.

Surgical teams trust **ALLON®** to help achieve more predictable outcomes.

FEATURES

- Pressure-relief algorithm to help redistribute pressure on the patient throughout use
- Precise and Automatic Temperature Control Using Proprietary Algorithms
- Wrap Before You Drape
- Real-Time Monitoring and Graphical Display of Temperature Measurements
- Full-Color, Touchscreen Display
- Simple, Easy to Use Interface With Intuitive Controls
- Quick & Easy Setup
- Small Footprint
- Track and Externally Access Procedure Data Using the Clinilogger™

ADVANCED TEMPERATURE MANAGEMENT

CRITICOOL®

Combining accuracy with user-friendly features, and a unique single-use, body-shaped garment with up to 80% body surface coverage, CritiCool® allows healthcare professionals to deliver temperature control with confidence.

Advanced temperature management has never been easier with **CRITICOOL®**.

FEATURES

- Pressure-relief algorithm to help redistribute pressure on the patient throughout use
- Accurate Temperature Control as Set by the Physician
- Full-Color Touchscreen Display
- Simple, Easy to Use Interface with Intuitive Controls
- Real-Time Monitoring and Graphical Display of Temperature Measurements
- Small Footprint
- Quick and Easy Setup
- Track Data Using the Clinilogger™

TARGETED TEMPERATURE MANAGEMENT

CRITICOOL® MINI

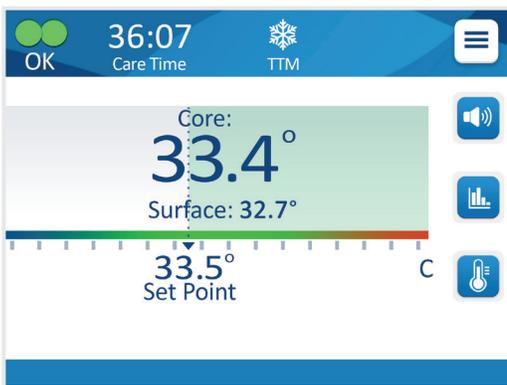

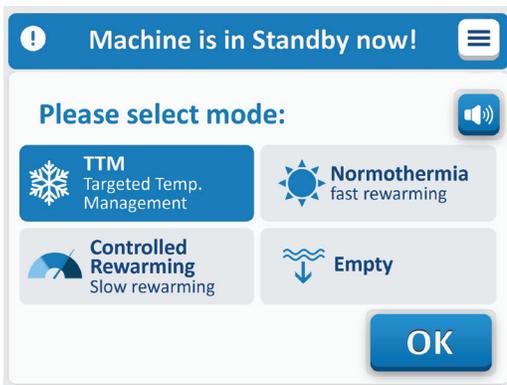

Building on the success of its full-size counterpart, CritiCool® MINI offers a compact and portable solution to delivering targeted temperature management (TTM). Unmatched in ease of use, setup, and operation, targeted temperature management has never been easier.

Compact design, complete treatment—**CRITICOOL® MINI.**

FEATURES

- Pressure-relief algorithm to help redistribute pressure on the patient throughout use
- Functional on Battery for up to 60 Minutes
- Lightweight With Minimal Footprint
- Fits Different Shelving Options for Easy Storage
- Intuitive User Interface With Color Touchscreen
- Automatic and Stable Temperature Regulation
- Built-in Data Viewer With Data Export Capabilities
- Core Out Functionality for Temperature Sharing
